PROFESSIONAL SUMMARY

Motivated and detail-oriented Bachelor of Computer Applications (BCA) graduate with a strong technical foundation in software programming (Java, C++, DSA) and database management. Combines technical problem-solving expertise with sharp analytical skills, active preparation for competitive banking analytics, quantitative aptitude, and structured logical reasoning.

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026

St. Columba's College, Hazaribagh

- Core Coursework: Data Structures & Algorithms, OOPs (Java/C++), DBMS, Operating Systems, System Analysis.
- Maintained strong academic record with analytical project demonstrations.

TECHNICAL PROJECTS

Banking Operations System 2025

Java | MySQL | Swing

- Developed a functional banking desktop application for user accounts, transaction logs, and security controls.
- Applied OOP principles and error handling to guarantee transaction consistency.

CPU Scheduling Simulator 2025

C++ | Data Structures

- Built scheduling simulation (FCFS, Round Robin) with visual Gantt chart outputs.
- Optimized dynamic memory allocation using pointer logic in C++.

TECHNICAL SKILLS

LANGUAGES

Java, C, C++, Core Python

CS CONCEPTS

DSA, DBMS, OOPs, JVM Architecture, Pointers

APTITUDE & ANALYSIS

- Data Interpretation
- Quantitative Reasoning
- Logical Problem Solving

TRAINING & CERTIFICATIONS

BANKING ANALYTICS

Quantitative Aptitude & Financial Awareness Training

JAVA CERTIFICATION

Object-Oriented Programming & Multithreading in Java

KEY STRENGTHS

- Detail-Oriented
- Strict Time Management
- Analytical Thinking
